

NTX Morse Microbit Transciever.

Parts list. Items one off unless stated.

Plastic parts 3D printed, see drawings.

Mechanical.

Machine screws A2 Stainless, M4 x 10mm, 2 off

Machine screws A2 Stainless, M2.5 x 10mm, 2 off

Stainless steel clock spring strip, 0.5 mm thickness, 10mm wide 120mm long

Brass hot melt knurled insert M2.5 x 4mm, 2 off

Brass hot melt knurled insert M4 x 6mm, 4 off

Brass hot melt knurled insert M6 x 8mm, 3 off

Knurled stainless steel thumb screw, M6 x 30mm, 3 off

Knurled thumb nut, aluminium, M6 12mm dia, 3mm thick

Stick on rubber feet, 10mm dia x 4 off.

Electronic/ Electrical.

BBC Microbit version 1, or version 2, with 2xAA battery box.

Breakout board for Microbit, RK Education RKuB1, angle connector.

Prototype board RK education RKPt170

BCD thumb wheel switch type KM2, 0-9, 30x18x8mm

20mm dia speaker, 1W mini speaker 8 ohm

Transistor 2N2222A

5mm dia LED red/ green common cathode

Non polarised electrolytic capacitor 4.7 uF 16V

Resistor 120R, 0.25W, 2 off

Resistor 1K, 0.25W

Dupont jumper wire 20cm for Microbit/ Arduino/ Rasp Pi, Male Male ends
